Revenue Generating Audit Report

Airport Sales Tax Liaison

September 9, 2013

Report Summary

The City Auditor forwarded a list of N Numbers for aircrafts located at the Galveston Airport to the Audit Division of Aircrafts and Water Vessels with the Texas State Comptroller. City Council granted the City Auditor permission to give the N Number List to the Texas State Comptroller. As a result, two sales tax audits are presently being conducted to collect sales tax on aircrafts located at the Galveston airport. The City Auditor will keep city council updated on the outcome of these aircraft sales tax audits.

**City of Galveston
Airport Sales Tax Liaison
City Auditor Executive Summary**

The purpose of this report is to seek the approval from the Mayor and City Council of Galveston to submit a list of aircraft owners to the Enforcement Division of the Texas State Comptroller Department to ensure sales and use tax has been properly paid on all aircrafts located at the Galveston Airport. The Texas Sales and Use Tax laws on aircrafts are very complicated and often misconstrued by aircraft owners. Aircrafts purchased outside the State of Texas and brought into the State of Texas are subject to an 8.25% use tax rate less any applicable sales tax paid to other states. This law is not applicable if the taxpayers meets and documents the "occasional sales and use tax exemption". Sales and Use Tax on Aircrafts is subject to leases on aircrafts as well. The complicated sales and use tax laws and the hardship placed on the audit division of the Texas State Comptroller to identify aircrafts located in the State of Texas creates an inherent risk of not collecting all the sales and use tax due on aircrafts. The large amounts of dollars involved with sales and a lease of aircrafts suggests that any sales or use tax due may be of a material nature.

Scope

The scope of my procedures included interviews with:

- The Director of Enforcement with the Texas State Comptroller.
- The Director of Audits for Aircrafts and Water Vessels with the Texas State Comptroller.
- The Department Head of the Galveston Airport.

Fieldwork Performed

The City Auditor obtained a list from the Airport Director of the N numbers (N Numbers are used to identify aircrafts) located at the Galveston Airport from the Department Head of the Galveston Airport. The City Auditor analyzed this list and counted one hundred and seventy (170) aircrafts reported to be located at the Galveston Airport.

Summary of Results

Information concerning sales and use tax payments of the aircrafts on this list obtained from the Department Head of the Galveston Airport is not public information. Therefore, verification of sales and use tax paid on aircrafts on this list provided by the Galveston Airport will have to be performed by the Audit Division of Aircrafts and Water Vessels with the Texas State Comptroller. The City of Galveston will receive its appropriate allocation of sales and use tax from the State of Texas if there are any findings that sales and use tax has not been properly paid for any aircrafts reported on this list obtained from the Galveston airport. The City Auditor has requested that the City of Galveston be kept informed of the audit results through the audit division and not be required to go

**City of Galveston
Airport Sales Tax Liaison
City Auditor Executive Summary**

through the open records process to learn of any audit results. This request was granted by the audit division and open records division of the Texas State Comptroller. The City of Galveston will be able to request information concerning the aircraft audits directly from the audit division of the Texas State Comptroller beginning in August 2013.

City Auditors Recommendation

The City Auditor recommends that the Mayor and City Council give permission to the City Auditor to forward the list of N Numbers for aircrafts located at the Galveston Airport to the Audit Division of Aircrafts and Water Vessels with the Texas State Comptroller. The City Auditor also requests permission from City Council to request from the Texas State Comptroller a similar arrangement for water vessels located in the City of Galveston. The Texas State Comptroller has paid a Finder's Fee for this type of information in the past for large material audit findings. This Finder's Fee is based on a percentage of the dollar amount collected in connection with the audit process. The Texas State Comptroller will not disclose to the City Auditor the percentage amount. The City Auditor requests permission from City Council to ask the Texas State Comptroller for a Finder's Fee to be paid to the City of Galveston if any of our information proves to be of assistance to the Texas Comptroller's audit division.

City Managers Response

I suggest the Council allow the Auditor to turn over his work to the State. An expansion into boating related taxes can be discussed in the context of the overall audit plan, though I would support any added efforts for revenue collection if the leads are good. I would recommend Council discuss and allow the Auditor to report these types of tax and revenue collection issues to the proper authorities without requiring prior Council approval. Such reporting could be limited to revenue audits regarding problematically low property appraisals, issues with possible sales tax fraud or misinterpretation, and other financial issues having a forecasted, estimated, or direct measurable impact on the City.

Subsequent Events

City Council granted the City Auditor permission to give the N Number List to the Texas State Comptroller. As a result, two sales tax audits are presently being conducted to collect sales tax on aircrafts located at the Galveston airport. The City Auditor will keep city council updated on the outcome of these aircraft sales tax audits.
